

Crestron Intelligent Building Management

Comcast Center Chose Crestron Building Management

Crestron integrates the technology in the 57-story Comcast building. Crestron lighting, multimedia distribution and AV presentation systems are monitored and controlled centrally and globally by Crestron RoomView® management software.

- ▶ Intelligent Facility Management Software
- ▶ Advanced Automation & Scheduling
- ▶ Controls 560 Lighting Circuits
- ▶ Integrated Shade Control
- ▶ Audio/Video Systems Integration
- ▶ "Green" Environmental Systems Management

Crestron delivers the only solution that can monitor and control all the technology including audio, video, and lighting in the Comcast Center.

Crestron RoomView® enterprise management software enables facility-wide monitoring and control of all lighting, network technology, multimedia distribution and presentation systems on a single, fully integrated platform. Designed as a "green" building, implementation of CRESTRON GREEN LIGHT™ environmental management solutions conserve energy, reduce costs and contribute toward LEED certification.

LEED®
